

FOLK ADDRESSES TAKOMA AUDIENCE

Washington's Ideals for America Explained as Urgings for Peace.

That there is a patriotism of peace as potent as the patriotism of war, and which is manifested in service to mankind was the keynote of an address delivered last night at Takoma Park by Joseph W. Folk, former governor of Missouri and chief counsel of the Interstate Commerce Commission.

"The American spirit is as strong today," said Governor Folk, "as it was in the days that gave birth to the republic. There is now but one heart in all North, South, East, and West, and that the heart of America."

Washington spoke not only of the patriotism that for the country's glory bravely walks even to the cannon's mouth, but he taught a larger patriotism that in the battles of peace will stand courageously in the front ranks and repel the assaults of error. The patriotism of service is the religion of Washington—service of God, service of country, and service of fellow-men. The maximum of service is brotherhood.

"We have not yet come to a full understanding of the ideals of Washington. We may not attain them soon, but we can strive for them with the assurance that this endeavor will lead up to the heights of peace and at last humanity may stand on the summit where shines, unobstructed, the light of the Fatherhood of God and the brotherhood of man. Thus will the ideals of Washington be fulfilled."

Governor Folk was introduced by W. G. Platt, president of the Takoma Park Citizens' Association.

The exercises were in the Presbyterian Church. The Rev. Thomas C. Clark, the pastor of the church, pronounced the invocation and the benediction.

Mrs. Laura Ray Renshaw, Mrs. Luther Hawley, and Luther Hawley furnished solo. A bit of "Washington's Birthday," by Master Milton Seaman, six years of age.

The choir of the church under the direction of James W. Dyre rendered patriotic selections. Col. G. C. Kniffin, L. M. Moores, and J. Bond Smith.

CHILD LEARNS SAFETY FIRST ON BLOTTERS

They Will Be Distributed Among Pupils of the Public Schools of District.

Co-operating in a movement to decrease accidents, the Washington Railway and Electric Company and the Capital Traction Company today began the distribution of a series of "safety-first" blotters among school children.

The plan to impress the children in the public schools by means of blotters with the need of being vigilant in the streets to avoid accidents was approved by Superintendent Thurston and the members of the Board of Education.

On each blotter is a picture of an accident or near-accident. Children are shown about to be run down by street cars and automobiles while they are at play. The first of the series to be distributed will warn the "kiddies" to "keep away from the tracks." This blotter shows a large crossing sign crowded with children about to be struck by a street car.
